OpenAI road towards AGI

L1

Chatbots

Models that hold natural conversations and generate content

L2

Reasoners

Systems that systematically think through multi-step problems and improve with extra "thinking time"

L3

Agents

AI that autonomously executes tasks, keeps context, and works under supervision

L4

Innovators

Systems that help generate new ideas, designs, proofs, or scientific advances

L5

Organizations

AI that can coordinate teams/tools and run complex operations
